SUMMARY

Front-end developer with a B.S. in Systems Analysis and Development (2026). I build responsive interfaces in React, Next.js and TypeScript and ship them to production. At RDL Development I lead the front-end on client projects, from requirements to launch. Looking for a front-end role, remote or in Brasília.

EXPERIENCE

RDL Development — Front-End Developer & Project Maintainer Present

Software studio that builds custom websites, apps and systems for clients.

- Lead the front-end and take part in requirements gathering, scope/timeline/price proposals and short delivery cycles.
- Candangos Shop: full online store for a gaming guild, with Pix payments. React, Supabase, Edge Functions.
- Gabriela Decorações: gathered requirements and built a responsive business site to showcase the brand's portfolio. React, TypeScript, Vite, shadcn/ui.
- Simula SISU 2026: live admissions-score simulator (see Projects).

Mind Health (capstone project, IFG) — Front-End Developer Jul 2024 – Dec 2025

- Built the React front-end of an eHealth platform, featured at the institute's first capstone showcase for technical innovation.
- Created responsive interfaces and highly reusable components.
- Applied ITIL fundamentals and software engineering best practices throughout development.

PROJECTS
